## TECHNICAL ASSISTANCE TO EU DELEGATION TO TURKEY FOR ESOP TENDER EVALUATION, MONITORING AND APPRAISAL

### Place

Turkey

### Client

EPRD Office for Economic  
Policy and Regional  
Development Ltd.

### Dates

01/2016 – 12/2017

### Financing

EU funds

### Project Description:

The IPA II regulation came into force on 16 March 2014 and is applicable retroactively from 1st January 2014. The IPA II regulation is complemented by the Common Implementing Regulation, which is a set of simplified and harmonised implementing rules and procedures for all external action instruments, as well as the IPA II Implementing Regulation adopted by the Commission on 2 May 2014. The EOP (2007-2009) is prepared in order to absorb this financial aid provided by IPA to environmental sector and is officially approved on 29 November 2007 by the European Commission. The overall objectives of EOP are (a) to improve environmental protection, (b) to improve living standards for the population (c) to improve access to drinking water, wastewater treatment and integrated solid waste services (d) to strengthen capacity and governance.

The specific objectives of this technical assistance are (i) to ensure tender procedures' compliance with PRAG tendering procedures and FIDIC contract conditions and other established rules of the Decentralised Implementation System (DIS) in Turkey as well as their technical soundness, (ii) monitoring of projects under Implementation, (iii) appraisal of projects submitted for financing.

### Scope of Services:

- Technical Review of Design and Procurement Files,
- Technical review on the evaluation reports,
- Support in the monitoring of Environmental Investment Projects and Project Preparations,
- Support in appraisal of Environmental Investment Project Applications,
